Re: Statement Regarding Wal-Mart Project:
621 Montara Road, Barstow, California

Dear Mayor Hackbarth-McIntyre and City Council Members:

Working with CREED-21 and The Inland Oversight Committee, Wal-Mart will satisfy certain conditions that would allow the installation of at least 250 kilowatts of solar photovoltaic panels for the generation of electric power at the new Wal-Mart store to be located at 621 Montara Road in Barstow, California. If those conditions can be satisfied, Wal-Mart will install the photovoltaic panels no later than 6 months after grand opening. In the event that the conditions cannot be satisfied for this store location, Wal-Mart agrees to perform a comparable installation at another Wal-Mart location in Southern California within one year of this store's grand opening.

Public or press inquiries about this project may be directed to Melissa Cameron at Southwest Strategies, (619) 508-6228.

Very truly yours,

Paul M. Gelb
